

Richmond Record-Herald

VOLUME XXV—THIRTEENTH YEAR.

RICHMOND, CONTRA COSTA COUNTY, CAL.—THURSDAY, JULY 23, 1914

NUMBER 159.

COMMISSION WILL RESUBMIT BOND QUESTION IN SEPTEMBER

DEMAND OF MAJORITY OF RICHMOND VOTERS FOR A PUBLIC OWNED WATER SYSTEM DEEMED SUFFICIENT CAUSE FOR ANOTHER ELECTION.

Defeat of the Richmond water development project yesterday by a small margin is not to deter the district commissioners from calling another election and again submitting the question to the voters. The second election will probably be held some time early in September, this allowing the necessary lapse of time for advertising the election thirty days, as is required by law. The date for the election may be fixed at a meeting of the commissioners which is to be held this evening.

Semi-official figures received today place the total of votes lacking for a two-thirds majority of the number cast at the bond election at 77. Changes in returns from the San Pablo and Lincoln school precincts from those first reported add three extra votes to the number lacking to carry the bonds. The official returns may still further alter these figures by lowering or increasing the two-third deficit.

Analysis of the returns show that the bond project was defeated by the voters who live outside of the city of Richmond, but in the water district. If the vote of the county line precinct was not included in the total, the project would have carried, according to the present returns, by the casting of only a few more affirmative votes. By taking out both the county line and the Stege votes, the bonds would have carried, with one vote to spare. This computation, is, of course, based on the returns as now known. The analysis shows more over however theoretical it may appear that within the city of Rich-

BIRCH BARK NOTE RECEIVED FROM REALTY DEALER

Word was received in this city today that M. W. Truitt was following in the footsteps of Joe Knowles, the wild man, and that at the present time he had discarded his clothing and was wandering aimlessly about in the forests of Mendocino county.

A birch bark letter written by Truitt and bearing the date of July 21st, has been found by authorities and it is believed that he will soon be forced to show up once more in civilization. The letter contained the following message: "I do not want to hear a word of any kind from the outside world no matter if the water bonds fail or carry?"

FIXTURE SHOP RAZED BY AN EXPLOSIVE

SHOP OF STERLING SHOW CASE COMPANY IS TOTALLY DESTROYED

The Sterling Showcase company's shop in Oakland who have their manufacturing plant in this city was entirely destroyed by fire of incendiary origin at an early hour this morning.

According to Inspector Low Agnew, detailed by the Oakland police to investigate the case, the fire in the Sterling shop started from the explosion of an internal machine, parts of which were picked out of the ruins by the firemen.

The loss of the shop is estimated to be in the neighborhood of \$7,500.

monopoly proper there is a large majority in favor of installing of a municipal owned water supply system for this city. It is in Richmond where the need of water is most urgent and where the need is best known to the voters.

It is the showing of the returns—the endorsement and demand of the Richmond people for an adequate

CITY COUNCIL TOLD ABOUT INCINERATOR

LISTEN TO ARGUMENTS OF AGENT BUT TAKEN NO ACTION

Policemen who have been counting on an increase in their salaries will have to wait until the budget for the increases has been prepared and presented to the councilmen. Such was the decision reached at the adjourned session of the city council last night.

Chief of Police Walker was present at the meeting and on his recommendation the following ranks were granted to five members of the force:

R. N. Ruiz, Sergeant Inspector of Detectives; V. A. Phillips, Inspector of the Bureau of Identification; J. O. McGowan, Sergeant No. 1; Philip Barry, Sergeant No. 2 and Geo. Betts, Sergeant No. 3.

Other business transacted was the appointment of fourteen men as special policemen. The names of those who received an appointment follows: W. M. Ellis, J. Luebbers, R. J. Jones, C. Mahnke, H. Yeater, R.

(Continued on page four)

FIRE TESTS MADE TODAY

A fire alarm test of unusual importance was held this afternoon by several members of the Board of Fire Underwriters in which, accompanied by Fire Chief LeMoine, alarms were turned in to Fire hall No. 2 from three respective boxes at the same instant.

The boxes from which the alarms were turned in were from 16, 17, and 51.

As each alarm reached the station it was clicked off on the fire alarm tape on the first floor and worked out to perfection.

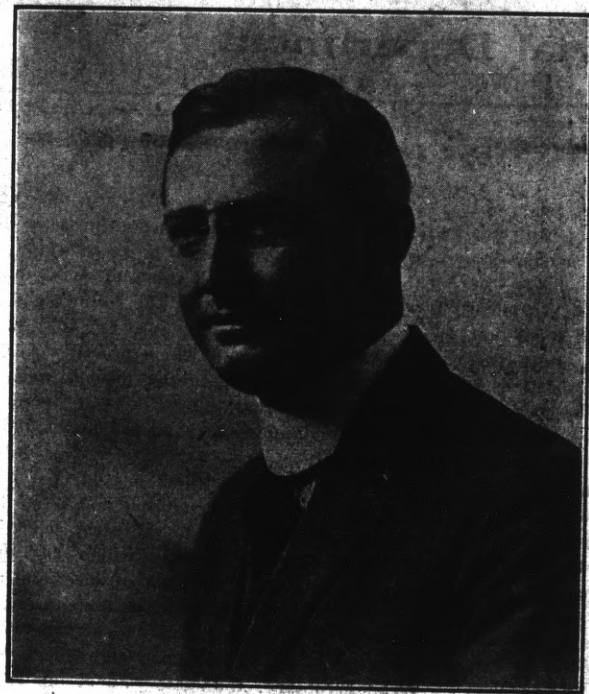

HANDSMASHED LATE TODAY

James H. Pauling, an employee of the Pacific Porcelain works, while engaged in enameling a heavy piece of pottery at a late hour this afternoon accidentally caught his right forearm in a fly-wheel at the plant. As soon as the machinery could be stopped Pauling was rushed to the offices of Dr. W. J. Caesar in the Pillow building where his injuries were treated and he was allowed to return to his home.

Superior Judge Latimer of Martinez was a visitor in this city today.

Mr. and Mrs. Stollsen, 453 Tenth street, are entertaining Mrs. A. Wagner.

Mr. and Mrs. H. L. Springer, First and Ohio streets, are entertaining Miss Ray Jacobs of San Francisco. Miss Jacobs is a sister of Mrs. Springer.

W. S. FARLEY, Former City Engineer of Richmond and Now a Candidate for the Office of County Surveyor of Contra Costa County.

"PAT" FARLEY IS LIKELY CANDIDATE FOR COUNTY OFFICE

FORMER ENGINEER OF THIS CITY MAKING FIGHT FOR COUNTY HONORS

Everybody in Richmond knows "Pat" Farley, former city engineer and one of the most urbane and wholesome individuals who ever held a public trust. Not only is he a competent man in his chosen profession, but Mr. Farley is a valuable acquisition to any community by reason of his optimistic and boosting spirit and the further fact that he is always willing and anxious to get behind any project that is likely to result in general benefit to the community, spending his

(Continued on page 8)

NEW BRICK IS CAUSE OF DELAY ON TRACKING

TRAFFIC MANAGER SAYS COMPANY WILL START WORK OF COMPLETION

Traffic Manager W. S. Brown of the Oakland Traction company was in this city today in regard to the further continuance of work upon that company's double tracking on Macdonald avenue.

Brown stated that the only hindrance to the completion of the work was the fact that a new brick foreman in a fly-wheel at the plant. As soon as the machinery could be stopped Pauling was rushed to the offices of Dr. W. J. Caesar in the Pillow building where his injuries were treated and he was allowed to return to his home.

A batch of this new brick is being run off at the present time and City Engineer Chapman will be notified as to its durability by the first of next week.

If the brick proves by tests it is useless for the work the company will then have to resort to their only other measure of sending north for the product.

The work of completing the concrete work from Twenty-second street east was started this morning.

ADHERENT OF CONSTITUTION IS HERE

SENATOR CURTIN CAMPAIGNING IN RICHMOND IS GOV. EMBROIDERER CANDIDATE

"Constitutional John," State Senator John B. Curtin, for sixteen years in the California legislature, now Democratic candidate for governor, was in Richmond today renewing former acquaintances and discussing the political situation with the local Democratic leaders. When Senator Curtin arrived here this morning he was met by A. G. Lang, W. F. Pedillon, and H. G. Stevens who escorted him about the town and introduced him to others interested in his candidacy.

Senator Curtin, due to his long service in the state legislature, has gained a wide acquaintance, most of his political friends referring to him as "Constitutional John," as he is known as a stickler for keeping legislation within constitutional limits. His insistence on making every act passed in accordance with the state and United States constitution won him the cognomen as a prefix to his given name. That it is not an unpopular one with the Senator is shown by his political cards upon which he has printed the nickname.

Some of the following are the planks in the platform of the Senator:

"The taking of all state institutions, including all water fronts, out of the hands of the Governor, and requiring the directors and commissioners of these institutions and water fronts to be elected for a term of four years, by the people of the county in which these institutions and water fronts are situated."

"The conservation of all the waters of the state, by the state, and in the interest of the consumer."

"The abolition of all useless and unnecessary offices and commissions."

Miss Olivia Silvas, one of the Standard Oil operators, has returned from a vacation trip.

COW GREETED MEN WHO RESPONDED TO FALSE ALARM

"Fire! Fire!! Fire!!!" Was the alarm that came in from box 431, located at the corner of Sixth and Ripley streets this morning. Fire truck No. 2 was soon on the job and coming to a sudden stop at the place where the fire should have been, found nothing but a Jersey cow standing idly chewing its cud. The cow took one look at the excited firemen and then turned again to her morning meal.

WILL SUPPLY FAIR GROUNDS WITH FOUNTAINS

PACIFIC PORCELAIN COMPANY TO MAKE 3,000 DRINKING FOUNTAINS

The Pacific Porcelain Ware company of this city have secured the contract for the supplying of all the sanitary drinking fountains to be used on the grounds of the Panama Pacific Exposition.

Just how many of the fountains will be used on the grounds the management of the factory is unable to explain but it is estimated that it will take in the neighborhood of about 3000.

Each fountain is to be mounted on a pedestal which will be sunk into the earth and around which will be plotted a small grass lawn.

FLASH POWDER CAUSES EXPLOSION

An explosion that might have caused considerable damage, happened at a late hour last evening in the rear of the photo studio of Charles Lind at 1024 Nevins avenue when Mrs. Lind threw what she thought was two empty boxes of flashlight powder into a rubbish fire.

The detonation made by the explosion of the small quantity of powder in the boxes shook buildings in the vicinity of the Lind home and brought a great crowd of people soon to the scene.

"To Observations Which Ourselves We Make, We Grow More Partial, for the Observer's Sake."

GOOD AND BAD TRUSTS

It was President Taft, we believe, who said there were good trusts and bad trusts, which is quite true, and the same also holds good as to corporations which might not be classed as trusts. There are many thousands of corporations which are good, very good, and some that are as bad as an addled egg. It is quite possible, also, that there are a few good trusts, though not very many. Most trusts are bad, for the reason, if for no other, that they are in restraint of trade and throttle competition.

Railroad corporations are being yanked up by the short hair all over the land, and perhaps even too rigidly, but they have brought that sort of feeling of antagonism on the part of the general public upon themselves, by their rascally dealings with the public for many years past, and therefore are not entitled to as much sympathy now as they otherwise would be. It is the bad railroads, the bad trusts and the bad corporations that the people want punished; not the good ones.

The New Haven steal, or rather rank robbery of millions upon millions of the people's money, is fresh in the public mind as an example of high finance in railroad circles. And now comes another example closer home, in the United Railroads Company of San Francisco, of which old Pat Calhoun was president, head, stomach and bowels for many years. In regard to how that company did business and juggled the money of its stockholders, the following from a San Francisco dispatch under date July 30th is extremely interesting reading matter:

"Testifying before the California state railroad commission at the investigation today into the withdrawal by Patrick Calhoun, formerly president of the United Railroads, of \$1,906,000, ostensibly for investment in the Solano Irrigated Farms project, L. J. Reynolds, auditor for the commission, asserted that taking everything into consideration, there actually existed a deficit of \$4,880,471 at the time of the last annual report of the United Railroads. Of this amount, said Reynolds, \$3,906,909 can not be accounted for in reports and books of the corporation which the commission has been able to examine.

"Reynold's testimony followed that of executive officers, directors and employers of the United Railroads, whose testimony developed that:

"The entire \$1,096,000 was withdrawn in cash from the treasury of the United Railroads upon directions from Calhoun by orders authorized by Thornwell Mullally, assistant to the president. A. M. Dahler, treasurer of the company, testified that on March 1, 1913, pursuant to Calhoun's order, \$85,000 in gold was carted from the company's offices to the Bank of California. This was the largest of similar withdrawals, he said.

"Charles N. Black, general manager of the company, testified that he did not know the money was gone until June, 1913, when Calhoun retired as president, and was succeeded by Jesse Lilienthal. The monthly financial statements of the company, said Black, did not show these withdrawals and he had heard that the treasurer had been ordered to report the sums taken as cash on hand. He added that the monthly financial reports of the company as late as February, 1913, indicated that the money taken by Calhoun was still cash on hand."

Much of this money, it is generally understood, was used in the old graft cases of San Francisco, in which Abe Ruef and others figured conspicuously.

A Christian Scientist says "hunger contractions of the stomach can be stopped by keeping the mind occupied with something else." Maybe so, maybe not, but there is some doubt about thought transference being a good substitute for bread and meat and potatoes for any considerable length of time. We have all heard of the old darkey who got his mule trained down to one oat a day and just as he supposed the habit had become permanent the critter up and died.

Seems like it is waste of time to be reading a column or two a day about New York murders when there is a superabundance of them always at hand around such places as San Francisco.

AN AGE OF MARVELOUS PROGRESS

The Scientific American offered a big prize for the best essays naming the ten great modern inventions, briefly stating the reasons for the choice, and William I. Wyman of Washington, D. C., won first prize with the following statements:

"The electric furnace, which produces a 'heat so intense as to simulate the primal forces of nature.' Among other things, it has reduced the price of aluminum from over \$12 per pound to less than 25c.

"The steam turbine, which has effected great economies in steam consumption and is sending the reciprocating engine to the scrap heap.

"The gasoline automobile, which has practically revolutionized methods of locomotion.

"The moving picture, which is now an important factor in education and one of the principal sources of cheap and good amusement.

"The aeroplane, the most radical innovation in the history of locomotion, threatening to revolutionize warfare and promising large possible commercial results.

"Wireless telegraphy, which has robbed the sea of most of its terrors and has done remarkable things in the field of world communication.

"The cyanide process, which has revolutionized the metallurgy of the precious metals.

"The induction motor, which made possible the utilization and transportation of alternating electric current, is largely responsible for the substitution of electric for steam power in the industries, and has conserved from 30 to 60 per cent of the energy formerly wasted in whirling line shafting and belting.

"The linotype, which has made it possible to set type almost ten times as rapidly as before.

"Electric welding, making it easy to join the most antagonistic metals safely, surely and swiftly."

These are all certainly wonderful inventions, but seems like a couple fully as wonderful have been omitted, to-wit: Sound-producing instruments and mechanical music-making contrivances, which, as some Irishman has said, enables a man to talk long after he is speechless.

No matter how sympathetic a woman may be before marriage she has to be emphatic after.

Huerta is not the only totterer whose exit President Wilson has facilitated.

Vacation schools are becoming quite popular, but Congress does not seem to appreciate it.

About the best thing that can be said for a girl with baby-doll slippers is that she isn't a bootlegger.

The idea of running automobiles with alcohol, remarks an exchange, seems to have been abandoned. Not entirely.

Everything seems to be depressed, according to the yowl of the Wall street pessimist, excepting the thermometer.

North Carolina is in distress. The report is that the corn crop will be 7,000,000 gallons shorter than last year.

Villa will remain subordinate to Carranza in all respects, except that Carranza will have to execute Villa's desires or get executed himself.

The figures show that fewer diamonds were imported this year than last. Personally we imported the same amount this year as any other year.

The Milwaukee Sentinel says it is a wonderful picture to see Wisconsin picking huckleberries. G'wan! You ought to see California picking oranges! And you just ought to see Los Angeles plucking tourists!

Down in the Ozark mountains if a fellow lays four-bits down on a stump and hoots like an owl he can get a whole quart of wildcat whisky, but that don't help anybody living in a prohibition community. They get so dry they can't hoot.

A HEAVY BURDEN

A Bad Back Makes Life Miserable for Many Richmond People

A bad back is a heavy burden.

A burden at night when bedtime comes.

Just as bothersome in the morning.

Ever try Doan's Kidney Pills for it?

Know they are for kidney back-ache—and for other kidney ills?

If you don't, some Richmond people do.

Read a case of it:

"Dropsy, which was shown by swelling in my limbs, shortness of breath and fluttering of my heart was my most serious ailment" says Mrs. Philomena M. Brier, of 511 Ninth street, Richmond.

"I suffered from severe attacks of back-ache. My head ached often and I had dizzy spells and a tired, worn out feeling. Since I heard about Doan's Kidney Pills, I have used them whenever these attacks have come on and in a short time they have fixed me up all right."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brier had. Foster-Milburn Co., Props., Buffalo, N. Y. ad.

COMING EVENTS

July 23—Food Bazaar and box social to be held in Sequoia hall by the Ladies of the Calvary Baptist church.

July 25—Registration closes for primary elections.

July 26—Picnic to be held by the members of Richmond Maennot Chor to be held at San Pablo creek.

August 8—Candidates' ball, to be held at East Shore park, under the direction of Roy Patterson.

August 9—Annual outing and joint picnic by Point Richmond Aerle No. 354, F. O. E., and Eagles' drill team.

August 25—Primary Election.

September 8—Meeting in Martinez of county Central Committee of all political parties.

July 15—Thimble party, arranged for by the ladies of the Wesley M. E. church, at the home of Mrs. Hafer, 140 Eleventh street.

November 3—General Election.

COMING FRIDAY

The Valley of the Moon—By Jack London.

SHOWER OF GOLD NEARING CLOSE TO END SATURDAY AT 7 O'CLOCK

MRS. W. W. FELCH TO
SUPERINTEND COUNT

On next Saturday, July 25th, at seven o'clock, the Record-Herald's Shower of Gold contest for babies will close and an important epoch in the history of Richmond Babyland will have finished. Several of the little candidates have in the last week made rapid strides toward the desired goal and when the winners are announced by the judges Saturday some unlooked for surprises will be sprung. Any little mother desiring to have the name of her little one appear among the most popular babies and secure for that little favorite one of the many valuable prizes offered can still do so by hustling and hustling hard for the remaining two days of the contest.

The judges have been chosen and today the standings were turned over to Mrs. W. W. Felch of 825 Nevins avenue, the officiating judge. The ballot box has been locked and will not be opened until next Saturday night when the judges will open it, count the votes and announce the winners.

The contest manager predicts a very close race from the votes that are rolling in today and every little youngster who expects to be among the prize winners will have to hustle for all that is in them until Saturday.

Be sure that you have secured a subscription from every one of your friends and acquaintances and get every vote you can because the one vote which you could have had for the asking might be the deciding vote.

A LIVE LITTLE TOT
HOLDS SECOND PLACE

JANE ELIZABETH OLNEY
"The Fair Baby"

Be sure and turn your votes in by 7 o'clock for at that time the judges will begin their count.

Never has Richmond had a better chance to boost their little tots and the chance may never be offered again so do the best you can for that little favorite of yours while the opportunity offers. The \$75 Graphonola is on exhibition at the office of the Record-Herald and the \$50 Victrola at the Hawley Music House at Twelfth and Macdonald. In addition to the furniture set or the Graphonola the one receiving first prize will receive \$25 in Gold which with the nomination prize, if the child has been nominated by the parent, makes \$50 in Gold. In the remaining two days you can accomplish wonders in vote getting if you just hustle and go in to win.

NEED ARMY ON ELECTION BOARDS

A total of 420 officers of election precincts are to be appointed by the board of supervisors at the first regular meeting in August to man the polling places at the primary.

There will be 70 precincts in the county and to each of them is allotted a crew of six officers. The pay ranges from \$5 to \$10, with the latter figures as the limit.

As the prospects are cheering for a long count the hire will be well earned.

YOU know how nicely we extracted that troublesome tooth for you. Tell your friends about it.

OAKLAND WILL HOLD UNIQUE BABY SHOW IN OCTOBER

OAKLAND, July 22.—Plans for the unique Baby Saving Show that will be held in October in Oakland's new \$2,000,000 city hall, are practically completed. There will be 24 booths, each in charge of a trained nurse, and these and other experts will enlighten the public in most important but little understood matters concerning babyhood and motherhood. The principal booths will be devoted to the following subjects:

Hereditary Influences, Good and Bad; Pre-natal Care; Care of the New Born; Good and Bad Sanitary Surroundings; Sleep; Bathing and Clothing; Breast Feeding; Artificial Foods, Their Preparation and Handling; Proper Care of Foods in General, particularly of Milk; Flies in relation to Infants and Disease; Non-Communicable Diseases and Communicable Diseases. An interesting feature will consist of several "Don't" booths, where, as the names indicate, people may learn what not to do.

The show will be made an annual affair in the future.

HERMAN SISTERS HOST AT PARTY

The members of Brunhilde lodge, Herman Sisters, were hosts last evening at a banquet and general good time held in Bank hall. The state officers who were present at the affair were: Henry Eggeling, grand president; I. V. Nostitz, grand vice president; B. Fedde, grand secretary; J. E. Kiefer, grand treasurer; W. Klippel, grand guide and E. C. Brugge and F. Hensel, grand past presidents.

The following members of the lodge were on the committee which had charge of the evening's affair: Mrs. G. Weidemann, Mrs. P. Kiraly, Mrs. E. Stucker and Mrs. M. A. Einhart.

700 PERSONS RECORD PETITIONS FOR OFFICES

Seven hundred candidates to a dot is the way the books closed in the secretary of state's office late Tuesday afternoon. A few scattering petitions may come in, having been delayed in the mails. The postmarks will be considered as determining the validity of all petitions which arrived after closing hours yesterday afternoon. Total collections, according to Frank Cory, are \$11,400, or nearly three times the previous record.

James Cremin, the statistician in charge of the reception of the petitions, passing upon qualifications and arranging the primary ballot, fears there will be a few candidates who would be sorely disappointed in not getting their names on the ballot. Failure to make the affidavit or to pay the fee will be fatal in every instance.

Among the prominent state officers we have qualified are Hiram W. Johnson, John D. Fredericks, Francis V. Keesling, Charles Belshaw and W. C. Ralston, Republican gubernatorial candidates; C. J. King, Fred Hall, John D. Curtin and Ed White, Democratic candidates for governor; John M. Eshleman and A. L. Shinn for lieutenant governor, and Frank C. Jordan, F. J. O'Brien and Thomas Monahan for secretary of state. State Controller John S. Chambers and Ed L. Head and Friend Richardson, the last two for state treasurer, have all qualified.

CITY COUNCIL TOLD ABOUT INCINERATOR

(Continued from Page 1)

R. Paasch, O. Wylie, L. L. Farrell, W. B. Trull, A. McMasters, H. Smith, S. Dalve, J. C. Leber and A. Trautvetter.

Mrs. Hansen Allowed \$150.

After a hearing on the protest of Mrs. Catherine Hansen to the report of the commissioners for the widening and extending of Fifth street over the tracks of the Oakland branch of the Santa Fe company it was agreed to allow her \$150 and 60 days in which to remove her house.

Engineer to Investigate Screenings.

By the order of the council, City Engineer Chapman is to investigate the screenings used by Contractor Page in the completion of the pavement of Twenty-second street south of Macdonald avenue. Councilman Ludwig said that he believed the screenings were of a soft quality of rock. It was his statement that caused the councilmen to order the investigation. Acceptance of Balboa, Bissell and Twenty-third street work was ordered.

Hear Argument for Installing Incinerator.

An incinerator contractor and builder of Pasadena, Frederick P. Smith, appeared before the city board and argued for the purchase of an incinerator for the handling of the Richmond garbage.

He estimated that it would take \$8000 to build an incinerator large enough to destroy the garbage daily collected in this city, but said that a larger one would soon be required, if the population continued to increase. The council took no action in the matter. Recently Dr. Blake, the city health commissioner advised that Richmond dispose of its garbage by taking it out to sea.

COMMISSION WILL RE-SUBMIT BOND QUESTION

(Continued from Page One)

water supply—which causes the water commissioners to announce that they will call another election. "We consider the results yesterday a victory will call another election. "We failed to carry the bond issue," said one of the commissioners today. "We will give the voters another opportunity to express their desires and as soon as possible," he added. This commissioner seems to express the sentiment of the rest.

Under the act forming the water district the commissioners can call as many elections as they think justifiable.

The urgent need of a water supply for the city and the results of the first election, they hold justifies the immediate resubmitting of the matter to the voters. That it is not unusual to replace a bond question before the public after it has failed to carry at a prior election was pointed out by one of the workers for the water bond issue. He referred to the second election held in Oakland before the bonds were voted for the building of the auditorium.

The semi-official returns from the different precincts in the water district give the results as follows:

	For	Against
City Hall	235	67
Justice Court	179	63
Seventh and Ohio Streets	181	66
Library	365	251

NEW INVENTION AUTOMATIC DIRECTORY

RICHMOND TO BE REPRESENTED ON MACHINES IN NORTHERN CALIF. CITIES

Richmond is to be represented on an automatic directory containing classified information of all the professional and business men of Northern California, including the cities and towns in the counties of Alameda, Contra Costa, Fresno, Glenn, Humboldt, Kern, Kings, Marin, Mendocino, Merced, Monterey, Napa, Nevada, Sacramento, San Francisco, Santa Clara, San Joaquin, San Luis Obispo, San Mateo, Santa Cruz, Shasta, Siskiyou, Solano, Sonoma, Stanislaus, Sutter, Tehama, Tulare, Yolo and Yuba.

The automatic directory is one of the latest mechanical devices invented. In appearance it resembles, at first glance, a "free weight scale," but it is made to indicate on a dial the names, business places and the telephone numbers of advertisers instead of to compute weight.

Below the dial there is a knob with a thumb screw which will swing around the clock-like face and when pressed will bring into view directly before the eyes, a directory of the city upon which the knob and screw are set.

Besides the setting of the knob and screw, the only operation necessary is to step upon the platform of the directory, the weight of the seeker after information automatically causing the mechanism to revolve until the directory of the desired city appears.

So interesting is the mechanical operation of the directory that it not only proves a valuable source of information, but also attracts much curiosity of value to the directory advertiser. More than seven years were consumed in experiments before the designer of this machine became satisfied with his invention, persevering with dogged insistence until his mechanism has now about reached perfection.

The device has been patented, and a full-sized working model is now on exhibition and in active operation at the main office of the Automatic Directory company, of California, No. 411 Crocker Building, San Francisco, Cal. Twelve of these machines have been completed, while contracts for 100 additional have been let to an Oakland establishment, delivery thereof to be made within 90 days.

Directory machines to the extent of approximately 250 are to be distributed throughout the Northern District of California, and installed in each city of the territory above enumerated by counties, in quantities according to the size of the place. These machines will be placed in the leading hotels, railway depots, ferry boats, and such other points of general utility capable of rendering their service most available to the public, without any cost whatsoever.

The information to be contained in this directory is not at present generally available in any other convenient form, and it is common knowledge that a great deal of valuable time and mental and physical energy is being wasted constantly by process of search for a list of business houses in adjoining towns. Every traveling man realizes the full force and effect of this assertion, existing directories not only being antiquated in their general characteristics, but oftentimes almost impossible to find outside the places they represent. This condition is overcome by the automatic directory to a remarkable extent, as these machines are to be installed in practically every avenue of public utility, affording a quick and reliable method of securing the information wanted at no expense whatsoever to the user.

S. C. Reid, an automatic directory representative, is in Richmond today interesting local people in the useful device.

YOU will appreciate our efforts to please you. Ours is a model dental office, conducted along business lines.

July 30—Whist party to be held in Bank hall by the members of Richmond Lodge of Rebekahs.

INSTITUTE FOLKS ENJOY BANQUET AT Y. M. I. HALL

With the Y. M. I. acting as hostess to the Y. M. I. 100 members of the two orders enjoyed a sumptuous banquet last night at the Young Men's institute hall. The banquet was given in honor of Mrs. Margaret Gately, the retiring president of the women's organization. A handsome handbag was presented to Mrs. Gately as a token of appreciation for her services while acting as president. The presentation speech was made by Reverend Father Collins.

Among the banquet speakers were Martin Matern, John Wagner, Louis Tavorlana, James Poppe and Patrick Welsh. Mrs. Gately also responded to the presentation speech in which she thanked the members

for their support of her administration.

The newly installed officers present at last night's affair were:

President, Miss Anna Monahan; vice president, Miss May McNally; second vice president, Miss Katherine Riordan; recording secretary, Mrs. Rose Woods; financial secretary, Miss Anna Quinn; treasurer, Miss Mary Casey; marshal, Miss Mary Sullivan; inside sentinel, Mrs. Anna Kenny; outside sentinel, Miss Jane Hartnett; trustees, Miss Margaret Dinneen, Miss Lauretta Burke and Mrs. Julia Wade.

The following committee handled the details: Mrs. Rose Woods, Miss Katherine Riordan, Miss Mary Casey, Miss Anna Quinn, Mrs. Anna Kenny and Mrs. Mary Hounsell.

When the University of California begins its fall semester next month, thirteen of its foremost instructors will be absent. They have been granted leaves of six months to a year. Several heads of departments, including Professor C. M. Gayley of the department of English and Professor Edwin B. Chapp, of the department of Greek, are among the absentees.

NAVY YARD SCRIBES SYMPATHIZE WITH US IN OUR BEREAVEMENT

Should by chance Wee land the mond club by gongs of that place Wieland aggregation on Sunday afternoon it should in some way promote our standing to such a position that Manager Healey of the Petaluma team might consider our chances for a return game.

The sport writers in the Navy Yard town of Vallejo must be heart-felt sympathizers with us in our recent defeat as the following clipping taken from the Vallejo Times will show:

"Richmond was defeated by Petaluma on two occasions during the past few weeks, but the record which the Oil town aggregation possesses is as formidable as any possessed by any of the bush teams in this section. But two losses out of fourteen contests is not so bad and the presentation of the short end were both by Petaluma. The support accorded the Rich-

mond club by gongs of that place has been nothing to brag about but this did not dampen the class of the ball team. The club is the fastest that has represented the burg of John D. in years."

WHITE HAIR THIEF MOVES COURT TO TEARS

San Quentin lost a prisoner, yesterday through the kindness of Deputy District Attorney A. S. Ormsby in the case of George Collins, the aged cement sack thief.

Collins, who at the present time is nearing his sixtieth year, stated to the court that he used to be a railroad man in his younger days and it was while he was pulling the

throttle over the Tehachapi Pass that he received an injury to his head from which he never fully recovered.

From the day that he was released from the hospital until the present time Collins who had nothing to gain by a falsehood told the court in a straightforward manner all the events of his life.

Many of the hanger-ons about the courtroom who strive for honors of not missing cases were at times moved to tears by the story of the white haired old man.

Collins led those present at the court through times when with the occasional smile of fortune to times when he slept in some nook or cranny along the San Francisco waterfront, with the result that the charge of felony against him was reduced to a misdemeanor one.

MAIL ORDER—Either book by parcel post, include EXTRA cents within 100 miles; 10 cents 100 to 300 miles; for greater distances ask postmaster amount to include for a lib.

CITIZENS UNITING FOR COUNTY AUTONOMY

PROMOTE BILL TO SOLVE PROBLEM OF CONSOLIDATED GOVERNMENT

OAKLAND, Cal., July 23.—Defending the counties of California from dismemberment and preserving to the small towns their autonomy, citizens of Oakland have united with those of other parts of the state in promoting a bill that will solve for all time the vexatious problem of city and county consolidated governments in the commonwealth.

It will be an alternative for the statute similarly advocated for the benefit of San Francisco and Los Angeles, and while giving to those two cities the right of expansion, it will likewise stop their encroachment outside the borders of counties to menace other municipalities.

San Diego, through its mayor, Charles F. O'Neill, has declared unqualifiedly for the proposed bill. Sacramento has evinced in unmistakable terms its opposition to the San Francisco-Los Angeles measure. Stockton is now united with Oakland and San Diego, and Fresno has evinced its support to the Oakland plan for providing for a consolidated city and county government.

The absolute justice might be done to San Francisco and Los Angeles, the Oakland plan follows in general terms the provisions of the statute desired by those cities. But in two particulars of statewide consequence it differs.

In the first place, the San Francisco statute provides that a city and county government may be organized by a municipality having 175,000 population. This figure is declared to be absolutely prohibitive to the interior cities of the state. Sacramento is unqualifiedly hostile to such a provision, so is San Diego, so is Fresno and Stockton.

The Oakland plan reduces this minimum population to 50,000. Thus are San Francisco and Los Angeles enabled to expand, and thus too are Sacramento and its sister cities protected in equal right.

Then the San Francisco statute provides for annexation across the county lines. This threatens the integrity of Alameda county in a great degree. The Oakland plan protects Alameda county intirely, and yet it reserves to San Francisco the direction of growth.

The Oakland plan is that a clay in forming a new city and county government, may cross county lines to include territory that has previously been severed from the annexing community. San Mateo county was once part of San Francisco, and Santa Cruz county of San Mateo. So San Francisco may go down the peninsula into Santa Cruz county, but may not cross the bay. This protects Alameda county.

"MARGUERITE, YOU'RE A PERFECT WONDER!"

"You MUST Have Made That Dress Yourself or You Never Could Have Got it for \$9.95."

"I did nothing of the sort, Maria. There's no economy in home dress-making with a store like Cherry's in town—and no satisfaction, either."

"This dainty little Silk Frock came straight from the prettiest store in town—CHERRY'S. It's a special price, of course, and there's a special **MAIL** at \$9.95 (that are simply dreams!)"

"I may as well tell you the rest now, too. This dress is going to be paid for BY THE WEEK—I just made a small payment yesterday when I picked it out."

"Marguerite, I won't spend a contented moment till you take me up there. I need MORE CLOTHES this very minute!"

"Come on then—we'll go right away. The address is between Washington and Clay, at 515 13th St., Oakland, and just across, at 528 13th St., you'll find the men's store. The San Francisco addresses are 1009 Market and 2406 Mission Sts."

LOCAL MENTION

Pertinent remarks about well-known People in Richmond Happenings about Town

Watermelon Shipment

Sam Herman, local produce dealer, yesterday received a large shipment of watermelons from Turlock.

Operation May Not Be Necessary.

Friends of Mrs. George O. Meese, wife of the county assessor, who is in the Lane hospital in San Francisco, hope that she may not have to undergo an operation for appendicitis as was first feared. The attending physician has recommended that Mrs. Lane remain at the hospital for several days before he determines if the operation is necessary.

Returns Home.

Mrs. H. Topping who has been spending the past few days at Cazadero, returned to her home in this city last evening.

Turley is Home.

Henry Turley who has been spending the week end on the Russian river, returned home yesterday afternoon.

Return to Sacramento.

Mrs. P. H. Leonard and sons who have been the guests of Mr. and Mrs. Paul Glasser, returned to Sacramento yesterday.

NOTICE OF COAL DEALERS

The COAL DEALERS Protective Association of Richmond, hereby gives notice to its patrons, that, on and after August 1st, 1914, all those having charge accounts are expected to re-settle same on the first following pay day. All accounts of more than thirty days standing will be considered delinquent, and no further credit will be extended until said delinquent accounts are settled in full.

This action is taken by the Association for protection against unscrupulous persons who try to avoid paying their bills, but casts no reflection upon the majority of its patrons.

The price of coal in Richmond, will at all times, be as low as same is sold for in other Bay cities. (Signed) RICHMOND COAL DEALERS, PROTECTIVE ASSOCIATION. Johnston & Braine, P. F. Johnson & Son, Adams & Pynchon, J. J. Davis, Pillow Bros., C. J. Lambrecht, Richmond Supply Company, L. Hampton, T. P. Labourdette.

FOR SALE

A NICE LITTLE HOME IN A VERY GOOD DISTRICT, CLOSE IN—3 ROOMS. WINDMILL & PUMP, 30x105. THIS

NEW OIL PIPE LINE TO COST OVER \$4,000,000

ROYAL DUTCH-SHELL INTERESTS WILL BEGIN CONSTRUCTION AT ONCE

To meet the competition of the Standard, the Associated and other big oil companies that have pipe line facilities, the Royal Dutch-Schell interests will at once construct a pipe line from the Coalinga field to a point near Martinez where a refinery is to be built.

The pipe line will cost \$4,254,685. It will be 174 miles in length and will be specially equipped with apparatus to keep the oil hot while in transit, enabling the line to be operated at the highest capacity.

The Valley Pipe Line company, a corporation promoted by the California Oil Fields Limited, which company in turn is controlled by the Royal Dutch-Schell combination, made an application to the Railroad Commission yesterday for permission to sell common stock with a face value of \$5,314,400 at \$80 a share. No bonds will be issued nor will there be any preferred stock.

The surveys have been completed. The right of way to the refinery site, as well as the refinery site itself, have already been obtained.

The pipe line will be equipped with eleven pumping stations and at each station the oil will be heated by what is known as the "hot system." The heating of the oil is done by using the exhaust steam of the engines.

Each station will be provided with two pumps and two or three boilers based on future requirements. It is planned to deliver 15,000 barrels of oil daily.

Already the company has spent \$52,469 on engineering work. Everything is in readiness for actual construction to begin.

It is understood that the stock already has been sold. The financing was done by the Royal Dutch people.

The Valley Company itself has an authorized capital stock of \$10,000,000. The directors are W. Mel-schke-Smith of Martinez; John Lawson of San Francisco; Balfour A. Adamson of Portland; J. G. Van Eck of San Francisco and H. R. Gallagher of San Francisco.

We do our work painlessly and quickly. You can prove this for yourself by making us a visit.

CENSUS ORDERED IN FOUR TOWNSHIPS

A census has been ordered by the board of supervisors to be taken in Byron, Brentwood, Pittsburg and Bay Point townships to determine the population so as to classify the districts.

The other twelve of the sixteen townships of the county are satisfied with the results from the method proposed by the supervisors in multiplying the registered number of voters by three and a half to give the population.

The supervisors fixed the pay of census takers at five dollars a day and expenses. Two are allotted to Byron, Brentwood and Pittsburg, and one to Bay Point.

Henry W. Heldorn and S. J. Burg were appointed census takers at Brentwood and J. E. Gore at Bay Point.

FARM LABORERS NOT MISTREATED IN CALIFORNIA

In their determination to force a Universal Eight Hour Law upon California, proponents of the measure have circulated industriously the statement that a vast majority of workers on farms exist as slaves, drudging unnumbered hours under the most trying conditions. But the report of the California State Labor Bureau disproves this falsehood and shows clearly that conditions of labor in California are more nearly ideal than anywhere in the civilized world. The bureau investigated the hours of labor of 145,164 male wage workers and found their average employment to be as follows:

1,675 or	1.5% worked	12 hrs.
950 or	0.9% worked	11 hrs.
18,115 or	16.8% worked	10 hrs.
46,627 or	43.2% worked	9 hrs.
39,532 or	36.6% worked	8 hrs.
1,051 or	1.0% worked	less than 8 hrs.

107,950 100.0

"That report should effectually disprove the absurd statements made by proponents of the Universal Eight Hour Law that California labor is overworked," said Arthur Dunn, secretary and manager of the Farmers' Protective League at Sacramento. "If California workmen were being mistreated the fact would not be overlooked in official reports."

Secretary Dunn announced that organizations had been effected in twenty counties to defeat the Universal Eight Hour Law and the local organizations have aggregate memberships of many thousands. In the country districts the educational campaign is well under way.

"It is necessary to arrange for the commencement of the campaign in the large centers," said Dunn. "We find that the total registration in three counties—Los Angeles, San Francisco and Alameda—is within 2500 votes of a clear majority of the entire vote in the State. It is the city dweller we must convince and hence our efforts will be centered around the more populous districts."

GOOD PROGRAM FOR CHURCH SOCIAL

Members and friends of the First Methodist church are looking forward with a great deal of pleasure to an entertainment and social which will be given this evening. The affair is to be held in the church and will begin at 8 o'clock. The evening's program follows:

Solo and Chorus Selection.....

..... "So Long Mary"

From Geo. M. Cohn's 45 minutes from Broadway.

Solo..... Mrs. D. D. Carter

Chorus.....

Miss Irene Conn, Miss Rose Horwitz, Mrs. Jennie Totten, Miss

VAUDEVILLE BILL OF STAR CLASS AT ORPHEUM

SPARKLING VAUDEVILLE THAT HAS

"class" stamped all over it is drawing mid-summer crowds to the Oakland Orpheum this week in gratifying measure. The women folk especially are delighted apparently with the Wm. A. Brady playlet, "Beauty is Only Skin Deep." This gentle satire on the weakness of the feminine sex for personal adornment, and the length to which a desperate wife may go in an attempt to regain her husband's affections, is diverting and amusing, and at the same time has a note of tragedy underneath that is easily perceived by the thoughtful. Miss Elizabeth Jordan who wrote the play "The Lady From Oklahoma," is also the author of this sketch, the sketch being really a scene taken from the "Lady of Oklahoma." Miss Jean Adair who plays the part of the Oklahoma lady, in quest of beauty on Broadway in New York, is a skillful actress who scores all her points in superb style and makes of the play a splendidly artistic offering. A dozen beauty shop attendants surround her and contribute to the picture and add materially to the success of the production.

The children are finding especial joy in the tricks done by Emil Palenberg's bears. These big bruins ride bicycles, prance around on roller skates, and in other ways give diversion to the youngsters, and to a good many adults as well.

Those who love delightful music, served with a dash of picturesque sauce, take delight in Yvette, who is just from the Folies Bergere, with a new style of violin playing and a futuristic setting that is a decided novelty.

There is plenty of fun while Kramer & Morton hold the state. They call themselves "the two black dots." As comedians and singers they are at the top of the heap. Prince Lai Mon Kim, the Chinese tenor is a big hit with his beautiful ballads and his Chinese parody on "Rag time violin."

The Seebanks, known as the world's champion bag punchers, have a splendid novelty which is thoroughly enjoyed by all who like to see athletes at their best in clever work.

Britt Wood tickles the fancy of the gallery and also pleases the down stairs clientele with some remarkably clever work on the harmonica, a humble instrument which he makes perform some really extraordinary stunts.

Paul La Croix, known as the mad hatter, is an odd juggler with a number of new tricks in his line that he exhibits.

MEAT CAUSE OF KIDNEY TROUBLE

Take a glass of Salts if your Back hurts or Bladder bothers—Meat forms uric acid.

If you must have meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaker, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot hurt, and makes a delightful of effervescent lithia-water drink. Advt.

POLICE DRAG-NET IN MOTION FOR LOST GIRL

CHIEF WALKER DETAILS SERGEANT RUIZ ON CASE TO ASSIST IN SEARCH

Disappearing while en route to San Francisco to marry the man of her choice, Miss Lottie Milne, a beautiful Scotch girl, has furnished the police of that city with a mystery which so far has completely baffled them. The young woman left Toronto, Canada, on July 15, and should have passed through here on July 19. Somewhere along the line she dropped from sight and despite every effort of the police and railroad officials to trace her whereabouts they have not found her. Her fiancé, Allen Watton, a salesman for the Aero Fire Alarm company, with offices in the Sheldon building, waited for her at the ferry building all day Sunday, hoping against hope that she would appear, but finally on learning that her trunk had arrived without her, he became convinced that harm had befallen her.

The romance which has thus been brought to a sad conclusion and has caused Watton to appeal to the detective department, was begun in Scotland two years ago. Watton met Miss Milne, who was living with her mother, and it was a case of love at first sight. He had laid his plans to come here and seek his fortune and good-byes were said at the steamer as he sailed away. He came directly to San Francisco, where he met with success and after establishing himself in business determined to send for his bride. Meantime Miss Milne and her mother had moved to Toronto, Canada. The correspondence was kept up and arrangements were made for the bride to come here for the ceremony. She left home on July 15. Her ticket called for her coming via the Grand Trunk railroad to Chicago, the Chicago, Milwaukee and St. Paul Railroad to Omaha, the Union Pacific to Ogden and the Southern Pacific to San Francisco. Her trunk checked over this route arrived on Sunday's train but Miss Milne failed to appear. At what point she disappeared is not known. Her ticket was No. 251 S. No. 54, from 63, and her baggage check was 378,821.

Left Toronto.
Watton, who is 31 years old, resides at 8121 California street. On Sunday night when he went home alone to his lodgings, he figured over the trip of his bride and decided that she had missed connections somewhere, probably in Chicago. Monday he waited again but with the same result. He then took the matter up with the Southern Pacific company, but when they could offer no explanation, he wired to Toronto, receiving the following answer from a friend there:

"Lottie left July 15. Have not seen her since. Mother very much worried."

Previous to that time and on the day the girl was to have left home, Watton received a dispatch to assure him that all was well. "Leaving tonight, 1:45." This is taken to mean 1:45 a. m. of July 16.

Chief of Police Walker has detailed Inspector Ruiz to investigate. He has obtained a careful description of the missing girl. She is 25 years old, 5 feet 4, weighs 140 pounds, has dark brown hair and blue eyes.

To Trace Progress.

It is probable that several days will elapse before the stubs of Miss Milne's railroad ticket can be located. When a trip is taken over four different railroads, a portion of the ticket is "lifted" on each line. For this reason the police will be able in the course of time to determine approximately how far Miss Milne traveled on her way to San Francisco.

That the young woman has either been kidnapped or has fallen into the clutches of white slavers, is one of the theories of the police. It is not believed she would have designedly left Watton in the lurch after purchasing a through ticket and especially after wiring him that she was leaving home.

Our prices are moderate but no better dental work can be had at any price.

EASTBAY MERCHANTS GET U. S. TRADE

Following the award of contracts amounting to more than \$500,000 worth of army and navy supplies by the United States Government to manufacturers of Oakland and Alameda county, the government yesterday morning called for bids on \$300,000 worth of supplies for the commissary department.

The communication was made through the wholesalers and manufacturers committee of the chamber of commerce.

Included in the supplies called for are dried and canned fruits, vegetables and meats to a total of more than 2,200,000 pounds, in addition to horses, mules, pumps, acid and many other supplies.

The east bay business men believe that the indications point to a constant trade with the government and look forward to an era of prosperity.

IRRIGATION BOND AMENDMENT FOR FARMER'S INTEREST

The initiative amendment regarding irrigation district bonds which will be voted upon at the coming election is designed to further the development of California by providing a ready cash market for the approved bonds of irrigation districts, which are public organizations formed by vote of the people in a certain territory to provide for public ownership of irrigation systems. The plan is to have the state purchase the bonds of such districts after they have been officially declared to be up to the standard required by law for legal investments for savings banks and to finance the transaction by issuing its own bonds, the payment of which will be assured by the district bonds held by the state and by a large guaranty fund set aside from the proceeds of the state bonds sold under the plan.

The plan is necessary for the following reasons:

1. The expected influx of immigration demands that we have an ample supply of land suitable for intensive cultivation and for sale at reasonable prices. This means in most cases irrigated land.
2. It is agreed that future irrigation development in California must be largely through irrigation districts, which are virtually rural municipalities, applying the principle of municipal ownership to the farmer's most needed utility.
3. Widespread prejudice in the East and Europe against irrigation bonds of any kind has made it very hard for California districts to sell their bonds, except at ruinous discounts, in spite of important recent legislation to safeguard them. Consequently the development of the interior, on which the prosperity of all of the cities of the state vitally depends, is greatly hindered.

This amendment will give the irrigation districts money for development work at fair rates of interest, under conditions that fully protect the state. The safeguards are as follows:

1. Only irrigation district bonds that are legal investments for savings banks can be bought by the state. Such bonds must now pass a rigid examination by the state engineer, the superintendent of banks and the Attorney-General, and the legislature can provide additional safeguards if deemed proper.
2. Payments of interest and principal of the district bonds purchased must be sufficient to meet all payments which the state must make on state bonds sold to provide for the purchase of such district bonds.

3. The state bonds cannot be sold for less than par, but only 90 per cent of the proceeds will be paid to the district for its bonds. The other 10 per cent will go into a special fund to cover expenses of administration and supervision of the district and to guarantee the state against loss. This fund can be invested and the income will meet current expenses, leaving the bulk of the fund as profit to the state.
4. Payment of the district bonds is assured by rigid provisions of our state law, requiring the levying of assessments to meet an irrigation district's obligations and the sale of all land on which assessments are not paid. Before a district's

"PAT" FARLEY IS LIKELY CANDIDATE FOR COUNTY OFFICE

(Continued from Page One)

money and time lavishly for the public weal.

Mr. Farley is a candidate for the office of county surveyor and the people of Contra Costa cannot do better than to elect him to that position. He is an experienced man in the matter of all sorts of construction work and possesses the kind of knowledge which, if he is elected will result in much benefit to Contra Costa and its various municipalities.

Farley is a member of the American Society of Civil Engineers and has for a number of years handled important public works. He was formerly assistant engineer of Alameda county and in that capacity attended to the public work of that office. He has won a reputation as being a man that knows his business, and wherever he has been in charge of work the best results have been obtained. He has shown an aptitude for public work that has made his services sought.

The big sanitary sewer system that is now being installed in the Stege section of Richmond is being put in under the direction of Farley who was appointed engineer in charge because of his knowledge of such work. Chambers and Heafy, who have the contract, have the work well under way.

The building of streets in Concord is also being done under the supervision of Farley, who was made city engineer of that municipality that he might have charge of this and other public work to be done there.

Farley is well known all over Contra Costa. His many friends are helping energetically in his campaign. His recognized ability gives him great strength before the people.

ONETAH COUNCIL HAS SOCIAL SESSION

A highly sociable session of the Onetah Council, Degree of Pochontas, was held last evening. The forms of entertainment were a whist party, banquet and a dance. The committee in charge of the affair was composed of Mrs. J. Simmons, Miss Rora Darstewitz, Mrs. C. E. Tuttle and Walter Patton. The prizes were won by the following players, twelve hands being played: Women's first prize, Miss Frances Ford, of Oakland; Mrs. Brown of this city and Mrs. M. A. Luscash, consolation; for the men: Arthur Lyner, Martin Bush and W. G. Casey, consolation.

Bonds can be approved by the state officials named, they must find that the project is feasible, the water supply ample and the total amount of bonds issued and to be issued not more than 60 per cent of the value of the lands in the district and the assets of the district.

5. The total amount of state bonds outstanding that may be issued under the proposed amendment can never exceed 2 per cent of the total valuation of the property taxable for county and city and county purposes in this state. This low limit prevents any impairment of the state's credit.

CHARLES A. HOOPER'S ESTATE TO RELATIVES

Charles A. Hooper, lumber magnate, who died in Los Medanos, Contra Costa county, leaves cash bequests amounting to \$100,000, according to terms of his will offered yesterday in Oakland for probate.

The entire estate is valued at \$1,000,000. Hooper bequeaths a fourth interest to his widow, Ida Hooper, and fourth interests to Isabel M. Creed and Idoline S. Crosby, daughters. After the other bequests and expenses have been paid the remainder of the estate is to be distributed among the widow and daughters.

The \$100,000 in bequests is represented by \$10,000 to Hooper's sister, Mrs. W. E. Norwood; \$10,000 to her daughter; \$10,000 to his son-in-law, W. E. Creed, and a score of bequests, ranging from \$2500 to \$5000 to cousins, nephews and other relatives.

TACK CAUSES DEATH OF INDIAN MORE THAN 100 YEARS OLD

WILLOWS (Glenn Co.) July 23.—Through the prank of some boys on the rancheria in placing a tack where he would step on it, Old Nick, the oldest Indian in Glenn county, died recently at the age of 105 years. The Indian boy set a tack on a trail leading through the village in the Coast range mountains, thirty miles west of Willows, and Old Nick happened to be the one who stepped on the tack.

Nick's foot began to swell, and in a short time he died from blood poisoning. An inquest was held, as the old Indian died without the attention of a doctor. Nick's father forty years ago told pioneer whites that his son was then 65 years of age.
